Protect Personal Insurance

Buying, building or renovating your house is the biggest investment you'll ever make. It may be a financial decision, but your house represents much more than money. It's a home, a place where memories are made. So you'll want to protect your assets as much as you can. We make sure that you, your family, your home and its contents are protected from the unexpected.

# Home or away, we got you covered

In Zambia, it's a necessity to have either building insurance for homeowners or contents insurance for tenants, so it makes sense to choose the best policy to suit your individual needs.

## Personal Lines (For You)

### 1. Home Insurance

- **House Owners**

This provides cover against losses and damages to an individual's house and to assets in the home. It also provides liability coverage against accidents in the home or on the property.

- **House Holders**

This provides cover against losses and damages to house hold contents including theft.

### 2. Car

- **Motor comprehensive**

This provides cover against loss of or damage to the vehicle and indemnity against all sums legally liable to pay to other parties for death, bodily injury, property damage or loss of use arising from use of the vehicle.

- **Motor Full Third Party**

This covers the insured's legal liability for death/disability of third-party loss or damage to the third-party property.

### **3. Travel Insurance**

This protects you and your family when you travel abroad for travel delays, cancellations and unexpected medical expenses.

### **4. Personal Accident**

This provides cover in the event of accidental death or injury.
